

Dr. Trevor Haynes
Biotic and abiotic influences in the use of Arctic lakes by fish and loons
Drs. Amanda Rosenberger & Mark Lindberg

Dr. Jonathan Richar
Recruitment mechanisms of tanner crab in the eastern Bering Sea
Dr. Gordon Kruse

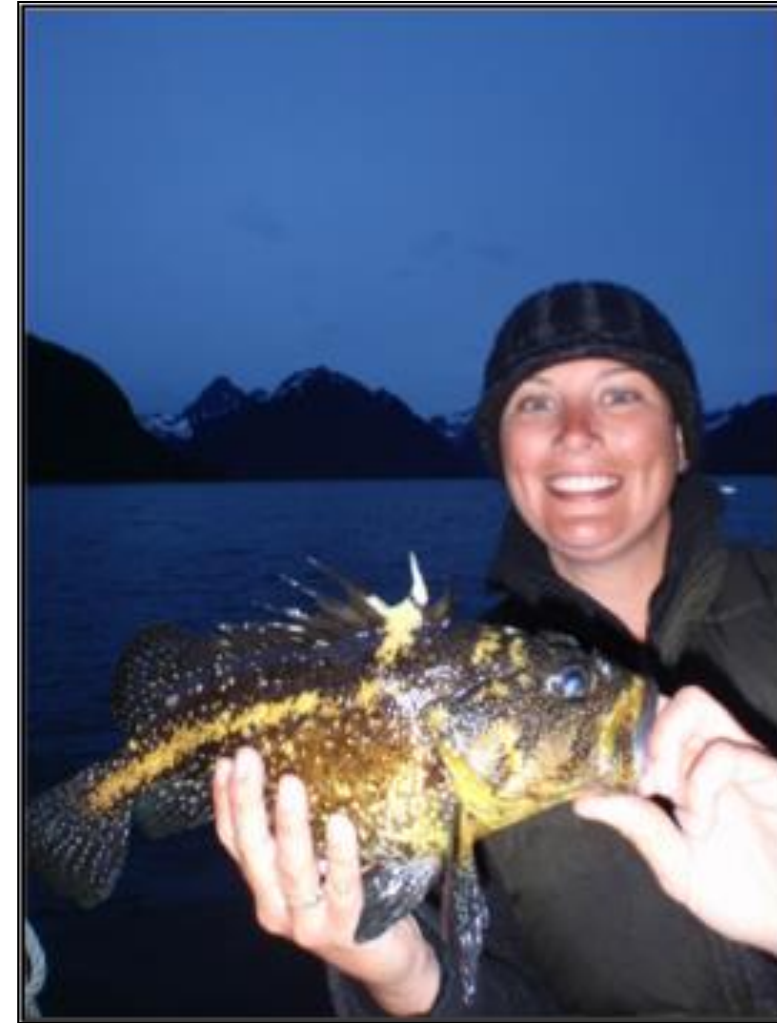

Dr. Vanessa von Biela
Examining sources of primary production and bottom-up limitations in nearshore ecosystems of the northeast Pacific Ocean using fish based indicators
Dr. Gordon Kruse

Dr. Joel Webb
Reproductive potential of snow and tanner crab in Alaska
Dr. Ginny Eckert

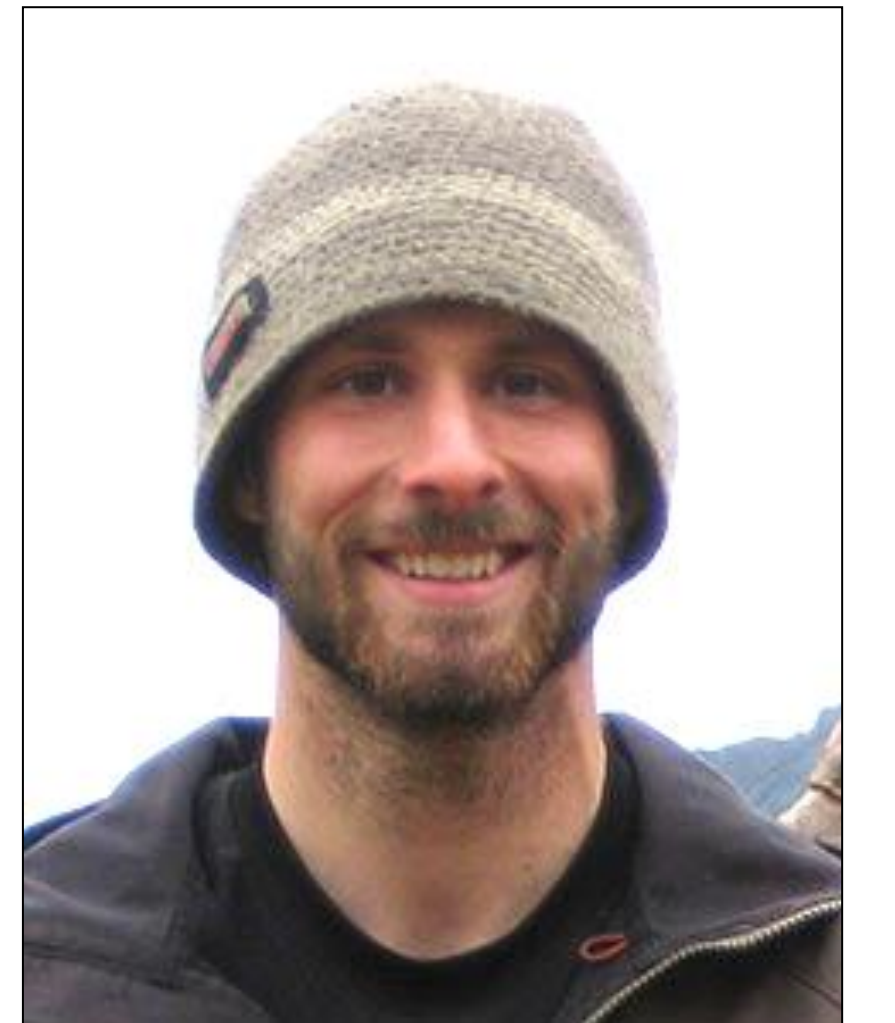

Ms. Brittany Blain
The effects of barotrauma and deepwater-release mechanisms on the reproductive viability of yelloweye rockfish in Prince William Sound, Alaska
Dr. Trent Sutton

Mr. Brendan Coffin
Environmental covariates of sablefish (*Anoplopoma fimbria*) and Pacific Ocean perch (*Sebastes alutus*) recruitment in the Gulf of Alaska
Dr. Franz Mueter

Mr. Michael Courtney
Dispersal patterns and summer oceanic distribution of adult Dolly Varden from the Wulik River, Alaska, evaluated using satellite telemetry
Dr. Andrew Seitz

Ms. Karson Coutré
Feeding ecology and movement patterns of juvenile sablefish in coastal Southeast Alaska
Dr. Anne Beaudreau

Ms. Danielle Duncan
The toxicity of creosote treated wood to Pacific herring (*Clupea pallasii*) embryos and characterization of polycyclic aromatic hydrocarbons near creosoted pilings in Juneau, Alaska
Dr. Michael Stekoll

Ms. Jessica Glass
Spatiotemporal variation of benthic communities on weathervane scallop (*Patinopecten caurinus*) beds with socioeconomic considerations of the commercial fishery off the coast of Alaska
Dr. Gordon Kruse

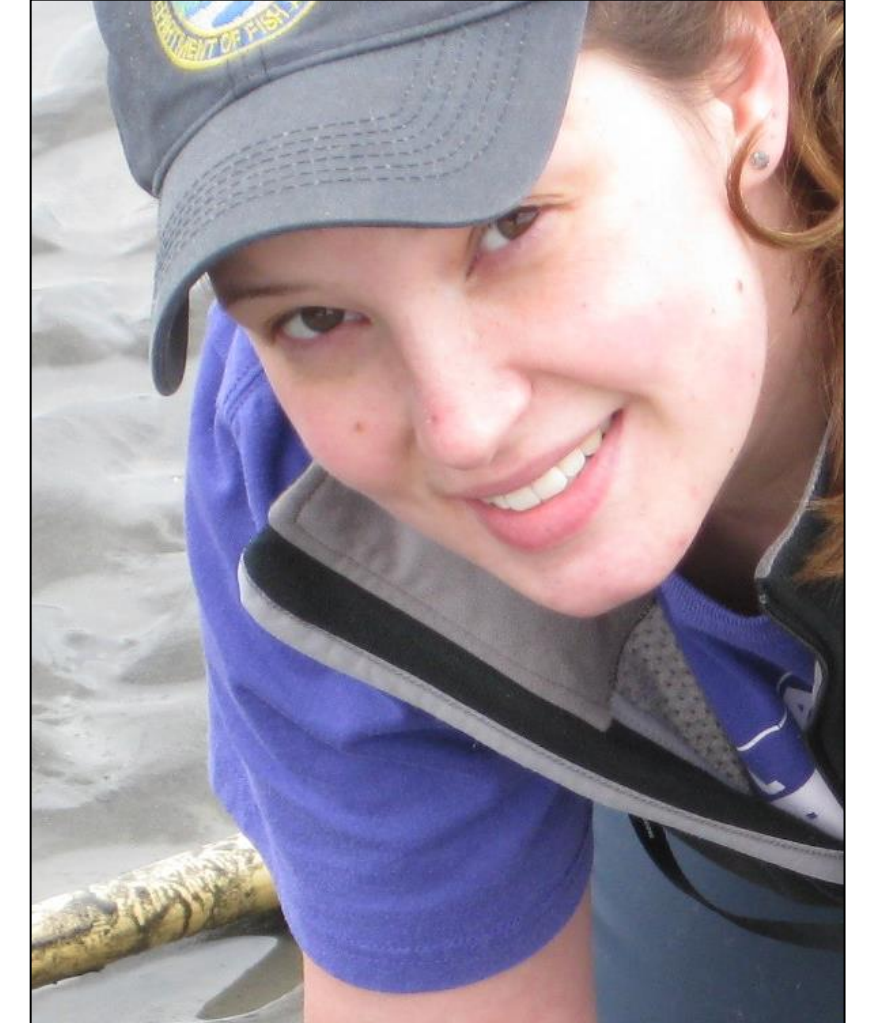

Mr. Benjamin Gray
Comparisons of Arctic cod, Arctic staghorn sculpin, and shorthorn sculpin diets throughout the northeastern Chukchi and western Beaufort Seas
Dr. Brenda Norcross

Mr. Kurt Heim
Seasonal movements of Arctic grayling in a small stream on the Arctic coastal plain, Alaska
Dr. Mark Wipfli

Ms. Jamie McKellar
Growth and maturity of the Pacific razor clam in eastern Cook Inlet, Alaska
Drs. Trent Sutton & Katrin Iken

Ms. Jacqueline Patt
Life history characteristics, management strategies, and environmental and economic factors that contribute to the vulnerability of rockfish stocks off Alaska
Drs. AJ Gharrett & Keith Criddle

Ms. Melissa Prechtl
Patterns in size, growth and condition of juvenile chum and pink salmon in the northeastern Bering Sea
Dr. Megan McPhee

Mr. Kevin Siwicke
Relationships between anadromous lampreys and their host fishes in the eastern Bering Sea
Dr. Andrew Seitz
